PROJECTS

Featured Project:

Readrr (Goodreads Alternative, Lambda Labs)

- Readrr helps users track, save, and search for new books based on a data algorithm that searches through 10000 books.

My Role:

- Front-End Engineer of the Web Application (Not the landing page!)
- Revolutionized a buggy site as our Lambda Labs project, one of the only projects up for App Store nomination.

Tech Stack:

- React
- Various Styling Libraries
- Various Data Libraries

Cyphen Development (Featured Side Project)

- Cyphen is a web development service, and this is the site I've created to advertise our services. (Some changes may change as I am actively updating this site)

My Role:

- Senior Developer

Tech Stack:

- React
- Node.js
- TailwindCSS
